

Working Group (WG) Meeting #10 Summary

January 19, 2010

Durango Recreation Center

4 – 6:30pm

NEXT MEETING DATE & AGENDA

February 1, 2009

4 pm at Durango Recreation Center

Agenda:

1. Propose new Guiding Principle related to private property rights
2. Continue review of Community revisions to Vision/GPs/Goals

MEETING SUMMARY

Meeting Participants:

Staff/Consultants: Jason Meininger, Charlie Deans, Robby Overfield, Erick Aune, Tracie Hughes, Julia Stantic, Gabe Preston

Working Group: Jack McGroder, Wade Moore, Jennifer Lopez, Barbara Jefferies, Dick Norton, Dick Norton, Dick White, Travis Craig, Roy Horvath

Public attendee(s): J. Paul Brown

Discussion:

- Overview of project time line
- Add February 1st, February 16th (Tuesday) and March 15th as WG meetings
- Discussion of prioritization: the working group will not be prioritizing goals. The community will be responsible for prioritizing the strategies.
- Discussion about Ideas forum: generally consultants draft strategies and take them to the community for review, revision and prioritization (left example). We will be employing an approach of having the community and organizations develop **their** strategies (right) with the consultant team facilitating and assisting. The intent is to convene disparate groups and interests to come together, share their ideas and hear/understand potential collaboration.

Approaches to Implementation Strategies

- Concerns about needing to insert a guiding principle related to property rights. WG members are tasked with drafting a guiding principle related to property rights. This will preclude the need for property rights/constitutional references throughout.
- Added a Guiding Principle related to traditional energy development: *“Conventional energy production is one of the fundamental pillars of the local economy.”*

Community Vision

Our vision is of a community that is a model of collaboration, partnerships and innovation. We have achieved a balance among between economic and social development and environmental stewardship. Our communities are designed-to-create support real neighborhoods that are connected physically and socially to each other. We have a strong sense of community and work together for the county as a whole. We honor and celebrate our diversity and heritage and value-honor the constitutional rights of private property-rights. Our community is a caring place that supports residents' effort to achieve their full potential. Our efforts make us one of the best places in the nation to live and raise a family.

Guiding Principles

Guiding principles serve as a basis of reasoning and action; a set of beliefs that lead, show the way and direct the decisions of the plan. They are the fundamental basis for any decision. They will shape the solution and define the way strategies are developed. Each principle should be defined with a rationale that explains the principle's purpose and implications. Guiding principles define the ground rules for the process and development of the plan. La Plata County will embrace these Guiding principles in the development of the Comprehensive Community Plan:

- Tourism remains an important component of our economic base and vitality.
- Growth and change will continue to occur in the future and will likely continue to alter our rural/agricultural landscape; ~~it can either serve or not serve~~ our community interests and values.
- Growth can create great places to live and work if the community crafts a vision and sets standards and reasonable codes for development that express how and where it wants to grow or change, while including the desires of the property owner.
- An integration of developed land uses such as housing, retail, work places, schools, parks, and civic facilities are important to the daily life of the residents, and when conveniently located are components of achieving better places to live.
- A variety of commercial land uses accommodates business growth and support economic diversity.
- A diversity of housing types and densities are available to a wide range of income levels, age groups and abilities are essential to creating real and healthy communities.
- Utilizing the existing ~~Providing a continuous~~ system of greenbelt/wildlife corridors helps to define identified growth communities.
- Communities are desirable places to live when they include a system of connected streets, infrastructure, pedestrian paths, and bike routes to commercial, educational, recreational, and residential destinations.
- Land use planning integrated with a larger transportation network encourages a variety of transportation choices and modes.
- Agricultural land and agricultural production are important to local economic vitality and security.

- Open Agricultural lands, Open Open space, and critical natural areas are important to the local character and the community's quality of life, but not at the expense of the property owner. (Should be a separate point?).
- Energy efficiency and renewable and conventional traditional energy production industries at the local and regional levels provide the basis for a sustainable economy.
- A prudent community uses domestic water through the most efficient means possible.
- Growth and development standards and decisions are clear, predictable, consistent, fair, timely, and cost effective.
- A fundamental role for the county is to maintain fiscal soundness.
- Land use planning remains relevant to the community as it evolves.

Economic Vitality Element

- **Economic Vitality Vision Statement**

Our local businesses are prosperous, our economy is diverse, and our county is fiscally healthy. We approach our economic development with a long term view and seek cooperative, integrated, and creative solutions to foster regional economic growth. Our county is renowned for entrepreneurial spirit, green industries, local food production, education, and cultural recreational and heritage tourism. We recognize there is a balance between economic and social development and environmental protection and we achieve this balance by promoting our assets while encouraging including a sustainable ethos in business development. Our reliable and fast internet and well educated community attract knowledge based industries. We are a national leader in conventional traditional and renewable energy industries. Our agricultural industry is thriving as a result of both increased local markets, mineral development, as well as innovative programs in the county that support agricultural viability, without regulations that diminish land value. Our county is a vibrant and exciting destination that shows off our natural assets, rich heritage, and diverse cultures. The county's economy provides opportunities for all people, young and old young people to stay as they grow their families, and advance their careers and continue to be productive members of the community. Economic vitality is supported by infrastructure investments, learning opportunities, access to health and childcare, and a balance between cost of living and wages.

- **Economic Vitality Goals**

1. Develop incentives for economic activities that promote business sustainability and diversity.
2. Actively collaborate with the municipalities, Sovereign Nations, and State and Federal agencies, private sector and non-profit entities to promote economic diversity and sustainability.
3. Support the Promote development and management of infrastructure necessary for a sustainable local economy: water, energy, waste, communications, housing and transportation.
4. Preserve and enhance our cultural landscape, scenic resources, recreational opportunities, and county-owned assets for residents, tourists and businesses.
5. Stimulate economic vitality by maintaining and adequate supply of land for businesses and industries and attracting and expanding businesses and industries that strengthen are congruent with our community local culture and provide livable wages.

6. Promote and encourage retention of agricultural lands, while allowing for development.
7. Encourage the development of and maintain the use of water rights in the county.
8. Keep taxes low, within reason that are fair and balanced with infrastructure and necessary community services.
9. Support agricultural innovations and sustainable technologies; promote and stimulate local markets as well as export markets for locally-produced agricultural products; encourage development of facilities for value-added products

Sustainable Development Element

- **Sustainable Development Vision Statement**

Our community develops on principles that respect and protect our natural, cultural, private property rights, and heritage assets that contribute to our high quality of life. Our community takes a big picture view in planning for the sustainable development of our county and respect private property rights. We employ effective principles to achieve our desired development pattern that creates and enhances the development of real communities. La Plata County guides development in a way that is symbiotic with local municipalities, sovereign nations states, neighborhood communities and property owners. To protect our rural lifestyle character, our County has grown around designated centers integrating new and old neighborhoods while supporting preserving agricultural lands. These centers are serviced connected by a well planned infrastructure and multimodal transportation system. Our agricultural system is an important provider of food to our community and the world and agriculture is supported through innovative local programs that ensure its viability. Our community is appreciative and is knowledgeable about our treasured cultural legacy, historic resources, and scenic assets which we strive to maintain. We recognize water is a finite resource and plan based upon that understanding. We are proactive in addressing impacts of drought and potential water shortages. Our planning takes into account the unique characteristics and needs of each watershed and ensures a reliable water supply for all users. La Plata County promotes domestic water conservation and reuse to reduce our water consumption. As a community, we planned for higher conventional energy prices by investing in new technologies. Thus, our County is renowned for its energy independence and as an exporter of conventional/traditional and renewable energy. Locally we have reduced energy demand through efficiency, conservation, and design.

Sustainable Development Goals

1. Support the enhancement of local food, fiber and forest production systems (growing, processing, marketing, consumption).
2. Support the enhancement of renewable natural resource systems (forest and range products, fisheries, wildlife).
3. Promote access to healthy, affordable, culturally-influenced, and sustainably produced food, sourced as locally as possible.
4. Promote a resource-efficient growth and settlement pattern directing most future growth into centers with infrastructure.
5. Meet local energy and materials needs as much as possible through efficiency and with locally or regionally renewable resources.
6. Support investment in adequate and sustainable water resources for social, environmental and economic purposes.
7. Promote traditional and renewable energy production and minimize mineral development that minimize negatively impacts on public health and the environment and infrastructure.

- Promote historic and pre-historic preservation to enhance heritage tourism and increase restoration of these sites.

9. Continue to protect historic and prehistoric cultural es sites and significant resources with respect to property rights.

~~9-10.~~ Get the hell out of the way!

Transportation Element

- Transportation Vision Statement**

La Plata County has an efficient multi-modal transportation system that complements our land use strategies. Walking, and cycling and equestrian routes connect our neighborhoods, towns, and employment. We have an efficient countywide public transportation system. Street, road and public transportation networks are well planned to enable people of all ages and abilities to get around safely, efficiently, and conveniently through the county. Our airport connects us to the rest of the world contributing to our economic vitality.

- Transportation Goals**

- Promote development that is accessed with multiple modes of transportation.
- Prioritize a road and transportation network that connects existing developments.
- Promote a regional public transportation system that includes communities beyond the state and county boundaries.
- Recognize rights of livestock passage on county roads through county policies.
- Minimize conflict between traffic and animals, both wildlife and livestock.
- Encourage an interconnected network of streets and paths that promote multi-modal transportation options, while respecting sensitive mountain geography.
- Encourage the use of the most efficient, safe and environmentally healthy transportation designs and technologies.
- Support ~~Promote~~ the use of telecommunications infrastructure as a substitute to daily commuting and travel.
- Encourage land use patterns that reduce per-capita average daily trips (ADT) & vehicle miles traveled (VMT).
- Promote the expansion of aviation services (number of flights, frequency, destinations) and support viable rail connectivity. consistent with a regional airport
- Maintain traffic, pedestrian, and cyclist safety.
- Promote efficiency and prioritization of transportation modes considering limited resources.

Natural Environment Element

- Natural Environment Vision Statement**

La Plata County supports the protection and enhancements of a healthy natural environment on a local, regional and global scale. We are a leader in environmental stewardship and a model community for our proactive and balanced approach to conserving natural resources. We enjoy a healthy environment with clean air and water, and dark night skies. Wildlife corridors connect natural areas throughout the county creating ecosystem linkages and improving wildlife vitality. Our community members continue our legacy of land stewardship engaging in activities on their land that enhances land health. Damage from invasive weeds has been reduced and our native species are thriving. As extractive industries develop and decline, disturbed lands are successfully reclaimed.

- **Natural Environment Goals**

1. Protect and enhance a healthy ecosystems, regionally-appropriate bio-diversity in the county through best management practices.
2. Encourage preservation and restoration of wildlife corridors that connect critical habitat, wetlands and riparian habitats, while protecting [safeguarding] private property rights.
3. ~~Reduce and~~ Encourage [Support] the reduction of and mitigate mitigation of wildfire hazards.
- 4.3. Address risks to our natural environment and long-term water resources by appropriate mitigation and adaptation measures.
- 5.4. Minimize noise pollution, light pollution, light trespass, and glare from future development and encourage retrofit of existing nuisances lights.
- 6.5. Work with residents, businesses, and other agencies to develop energy infrastructure to generate sufficient energy locally to meet future needs without net energy imports to the extent possible.
- 7.6. Encourage the restoration or reuse of lands impacted by resource development.
- 8.7. Minimize Restrict development in the floodplain and significant geologic hazard areas to protect natural resources and property.
- 9.8. Collaborate with federal [EPA], state, sovereign nations tribal, and local agencies to protect and improve air and water quality and manage noxious weeds.
9. Promote profitable recycling and reuse efforts.

Healthy Communities and Housing Element

- **Healthy Communities and Housing Vision Statement**

La Plata County is a great place for multigenerational families. The County strives to maximize the quality of life, well-being and potential of all citizens. The County has taken an active leadership role in affordable housing by encouraging free market development, so that citizens are able to live and work in the county. There are ample housing choices for all income levels. Through programs and organizations, all citizens are provided the support they need to reach their personal potential. Childcare is widely available and affordable. Our community promotes an active and healthy lifestyle. The County supports quality recreational and park facilities that to through enhancing public health. Our community members have access to quality and affordable health care for all income levels. Community members Young people are nourished and viewed as assets, and are encouraged to be involved community members. They have the opportunity to continue to live here. Our community provides opportunities for lifelong learning and development for all every individual, including educational excellence for all.

- **Healthy Communities and Housing Goals**

1. Encourage and take an active role to increase the supply of affordable/attainable/workforce **and senior** housing, **recognizing that manufactured housing offer affordable housing opportunities.**
2. Integrate a mix of housing types near employment and services.
3. **Encourage Promote** construction and renovation of homes to be safe, healthy and energy efficient **while allowing for personal preferences and finance limitations.**
4. Encourage life skills and lifelong learning opportunities.
5. Support access to affordable healthcare and to a variety of providers.
6. Support a continuum of choices that helps seniors and disabled persons to thrive.
7. Promote healthy communities through neighborhood design, transportation networks, and public education.
8. Support quality childcare and elder care that is widely available and affordable.
9. Encourage dedicated access to public open space, recreation and trails.
10. Support and encourage partnerships with local agencies in the provision of recreational and community facilities.

11. Promote intergenerational interaction between youth and senior populations.

~~10.~~ **12. Provide support to youth activity programming.**

Organizational Excellence Element

- **Organizational Excellence Vision Statement**

We have a strong sense of community; individuals, neighborhoods, and communities all work together to achieve common goals for the county as a whole. Communication and collaboration across the community is effective and citizens are confident in their county government. Respectful and informed dialogue to resolve community challenges results in effective solutions based upon multiple benefits. Groups work together to maximize scarce resources and people are aware of the various services available. Diversity in our community is valued and celebrated. People from different age groups, cultures, backgrounds, and interest frequently come together to participate in local activities, events, and projects. Within local government, La Plata County supports a work environment that values productive employees, innovative progressive personnel practices, and continuous workforce development to ensure county services are delivered in an efficient, ethical and responsible manner.

- **Organizational Excellence Goals**

1. Provide citizens with user friendly **consistent** and efficient services **in pace with economic growth.**

2. Collaborate across with local governments, with state and federal agencies, the Sovereign Nations, and for- and not-for-profit businesses, and community organizations to ensure efficient and effective service delivery.
3. Engage and inform citizens in local decision making and develop transparent public processes that encourage respect among between all individuals and groups.
4. Work towards excellence and efficiency in all county management practices functions/endeavors.
5. Ensure two-way interaction between citizens and their county government that includes easy access to information, transparency, and opportunities for citizen input.

6. Work to align municipal and county goals, visions, and actions through collaboration and communicating.

~~5.~~

Community Vision

Our vision is of a community that is a model of collaboration, partnerships and innovation. We have achieved a balance ~~among between~~ economic and social development and environmental stewardship. Our communities ~~are~~ ~~designed to create~~ ~~support~~ ~~real~~ neighborhoods that are connected physically and socially to each other. We have a strong sense of community and work together for the county as a whole. We honor and celebrate our diversity and heritage and ~~value~~ ~~honor the constitutional rights of~~ private property ~~rights~~. Our community is a caring place that supports residents' effort to achieve their full potential. Our efforts make us one of the best places in the nation to live and raise a family.

Guiding Principles

Guiding principles serve as a basis of reasoning and action; a set of beliefs that lead, show the way and direct the decisions of the plan. They are the fundamental basis for any decision. They will shape the solution and define the way strategies are developed. Each principle should be defined with a rationale that explains the principle's purpose and implications. Guiding principles define the ground rules for the process and development of the plan. La Plata County will embrace these Guiding principles in the development of the Comprehensive Community Plan:

- Tourism remains an important component of our economic base and vitality.
- Growth and change will continue to occur in the future and will likely continue to alter our rural/agricultural landscape; ~~it can either serve or not serve our community interests and values.~~
- Growth can create great places to live and work if the community crafts a vision and sets standards and reasonable codes for development that express how and where it wants to grow or change, while including the desires of the property owner.
- An integration of developed land uses such as housing, retail, work places, schools, parks, and civic facilities are important to the daily life of the residents, and when conveniently located are components of achieving better places to live.
- A variety of commercial land uses accommodates s business growth and support economic diversity.
- A diversity of housing types and densities are available to a wide range of income levels, age groups and abilities are essential to creating real and healthy communities.
- Utilizing the existing ~~Providing a continuous~~ system of greenbelt/wildlife corridors helps s to define identified growth communities.
- Communities are desirable places to live when they include a system of connected streets, infrastructure, pedestrian paths, and bike routes to commercial, educational, recreational, and residential destinations.
- Land use planning integrated with a larger transportation network encourages a variety of transportation choices and modes.
- Agricultural land and agricultural production are important to local ~~economic~~ vitality and security.
- Open Agricultural lands, Open ~~Open~~ space, and critical natural areas are important to the local character and the community's quality of life, but not at the expense of the property owner. (Should be a separate point?).

- Energy efficiency and renewable ~~and conventional traditional~~ energy production industries at the local and regional levels provide the basis for a sustainable economy.
- A prudent community uses domestic water through the most efficient means possible.
- Growth and development standards and decisions are clear, predictable, consistent, fair, timely, and cost effective.
- A fundamental role for the county is to maintain fiscal soundness.
- Land use planning remains relevant to the community as it evolves.

Economic Vitality Element

- **Economic Vitality Vision Statement**

Our local businesses are prosperous, our economy is diverse, and our county is fiscally healthy. We approach our economic development with a long term view and seek cooperative, integrated, and creative solutions to foster regional economic growth. Our county is renowned for entrepreneurial spirit, green industries, local food production, education, and cultural, recreational and heritage tourism. We recognize there is a balance between economic and social development and environmental protection and we achieve this balance by promoting our assets while encouraging including a sustainable ~~ethos in~~ business development. Our reliable and fast internet and well educated community attract knowledge based industries. We are a national leader in conventional traditional and renewable energy industries. Our agricultural industry is thriving as a result of both increased local markets, mineral development, as well as innovative programs in the county that support agricultural viability. without regulations that diminish land value. Our county is a vibrant and exciting destination that shows off our natural assets, rich heritage, and diverse cultures. The county's economy provides opportunities for all people, young and old ~~young people~~ to stay as they grow their families, ~~and~~ advance their careers and continue to be productive members of the community. Economic vitality is supported by infrastructure investments, learning opportunities, access to health and childcare, and a balance between cost of living and wages.

- **Economic Vitality Goals**

1. Develop incentives for economic activities that promote business sustainability and diversity.
2. Actively collaborate with the municipalities, Sovereign Nations, and State and Federal agencies, private sector and non-profit entities to promote economic diversity and sustainability.
3. Support the ~~Promote~~ development and management of infrastructure necessary for a sustainable local economy: water, energy, waste, communications, housing and transportation.
4. Preserve and enhance our cultural landscape, scenic resources, recreational opportunities, and county-owned assets for residents, tourists and businesses.
5. Stimulate economic vitality by maintaining and adequate supply of land for businesses and industries and attracting and expanding businesses and industries that strengthen ~~are congruent~~ with our community local culture and provide livable wages.
6. Promote and encourage retention of agricultural lands, while allowing for development.
7. Encourage the development of and maintain the use of water rights in the county.
8. Keep taxes low. within reason that are fair and balanced with infrastructure and necessary community services.

9. Support agricultural innovations and sustainable technologies; promote and stimulate local markets as well as export markets for locally-produced agricultural products; encourage development of facilities for value-added products

Sustainable Development Element

- **Sustainable Development Vision Statement**

Our community develops on principles that respect and protect our natural, cultural, private property rights, and heritage assets that contribute to our high quality of life. Our community takes a big picture view in planning for the sustainable development of our county and respect private property rights. We employ effective principles to achieve our desired development pattern that creates and enhances the development of real communities. La Plata County guides development in a way that is symbiotic with local municipalities, sovereign nations states, neighborhood communities and property owners. To protect our rural lifestyle character, our County has grown around designated centers integrating new and old neighborhoods while supporting preserving agricultural lands. These centers are serviced connected by a well planned infrastructure and multimodal transportation system. Our agricultural system is an important provider of food to our community and the world and agriculture is supported through innovative local programs that ensure its viability. Our community is appreciative and is knowledgeable about our treasured cultural legacy, historic resources, and scenic assets which we strive to maintain. We recognize water is a finite resource and plan based upon that understanding. We are proactive in addressing impacts of drought and potential water shortages. Our planning takes into account the unique characteristics and needs of each watershed and ensures a reliable water supply for all users. La Plata County promotes domestic water conservation and reuse to reduce our water consumption. As a community, we planned for higher conventional energy prices by investing in new technologies. Thus, our County is renowned for its energy independence and as an exporter of conventional/traditional and renewable energy. Locally we have reduced energy demand through efficiency, conservation, and design.

Sustainable Development Goals

1. Support the enhancement of local food, fiber and forest production systems (growing, processing, marketing, consumption).
2. Support the enhancement of renewable natural resource systems (forest and range products, fisheries, wildlife).
3. Promote access to healthy, affordable, culturally-influenced, and sustainably produced food, sourced as locally as possible.
4. Promote a resource-efficient growth and settlement pattern directing most future growth into centers with infrastructure.
5. Meet local energy and materials needs as much as possible through efficiency and with locally or regionally renewable resources.
6. Support investment in adequate and sustainable water resources for social, environmental and economic purposes.
7. Promote traditional and renewable energy production and minimize mineral development that minimize negatively impacts on public health, and the environment and infrastructure.
8. Promote historic and pre-historic preservation to enhance heritage tourism and increase restoration of these sites.

9. [Continue to P](#)protect historic and prehistoric cultural [es sites](#) and significant resources.
