REVISIONS TO VISION AND GOALS STATEMENTS – GROUP BEGAN WORKING AT TRANSPORTATION ELEMENT WHERE WE LEFT OFF AT THE LAST MEETING.

Community Vision

Our vision is of a community that is a model of collaboration, partnerships and innovation. We have achieved a balance among economic and social development and environmental stewardship. Our communities are! neighborhoods that are connected physically and socially to each other. We have a strong sense of community and work together for the county as a whole. We honor and valuecelebrate our diversity and heritage. We respect property rights. Our community is a caring place that supports residents' effort to achieve their full potential. Our efforts make us one of the best places in the nation to live and raise a family.

Guiding Principles

Guiding principles serve as a basis of reasoning and action; a set of beliefs that lead, show the way and direct the decisions of the plan. They are the fundamental basis for any decision. They will shape the solution and define the way strategies are developed. Each principle should be defined with a rationale that explains the principle's purpose and implications. Guiding principles define the ground rules for the process and development of the plan. La Plata County will embrace these Guiding principles in the development of the Comprehensive Community Plan:

- [La Plata County officials and its residents honor the importance of private property rights, respect the applicable provisions of the Colorado and United States Constitutions, and acknowledge that all county citizens share equal rights with respect to representation and opinion](#)
- Tourism remains an important component of our economic base and vitality.
- Growth and change will continue to occur in the future and will likely continue to alter our rural/agricultural landscape.
- Growth can create great places to live and work if the community crafts a vision and sets standards and reasonable codes for development that express how and where it wants to grow or change.
- An integration of developed land uses such as housing, retail, work places, schools, parks, and civic facilities are important to the daily life of the residents, and when conveniently located are components of achieving better places to live.
- A variety of commercial land uses accommodates business growth and support economic diversity.
- A diversity of housing types and densities are available to a wide range of income levels, age groups and abilities are essential to creating real and healthy communities.
- [Greenbelt/wildlife corridors help to define growth communities.](#)
- Communities are desirable places to live when they include a system of connected streets, infrastructure, pedestrian paths, and bike routes to commercial, educational, recreational, and residential destinations.
- Land use planning integrated with a larger transportation network encourages a variety of transportation choices and modes.
- Agricultural land and agricultural production are important to the local economy and security.
- Agricultural lands, open space, and critical natural areas are important to the local character and the community's quality of life.
- Energy efficiency and renewable energy production [industries](#) at the local and regional levels provide the basis for a sustainable economy.
- Conventional energy production is one of the ~~fundamental~~ pillars of the local economy.
- A prudent community uses water through the most efficient means [practical possible](#).
- Growth and development standards and decisions are clear, predictable, consistent, fair, timely, and cost effective.
- A fundamental role for the county is to maintain fiscal soundness.
- Land use planning [with an engaged public](#) remains relevant as the community evolves.

Economic Vitality Element

- **Economic Vitality Vision Statement**

Sustainable Development Element

- **Sustainable Development Vision Statement**

Our community develops on principles that respect and protect our natural, cultural, and heritage assets that contribute to our high quality of life. ~~Our community takes a big picture view in planning for the sustainable development of our county.~~ We employ effective principles to achieve our desired development pattern that creates and enhances the development of real communities. La Plata County guides development in a way that is symbiotic with local municipalities, sovereign [nations](#), neighborhood communities and property owners. To protect our rural [lifestyle and](#) character, our County has grown around designated centers integrating new and old neighborhoods while [maintaining](#) agricultural lands. These centers are [served](#) ~~connected~~ by a well planned [infrastructure and](#) multimodal transportation system. Our agricultural system is an important provider of food to our community [and beyond](#) and agriculture is supported through innovative local programs that ensure its viability. Our community is appreciative and is knowledgeable about our treasured cultural legacy, historic resources, and scenic assets which we strive to maintain. We recognize water is a finite resource and plan based upon that understanding. We are proactive in addressing impacts of drought and potential water shortages. Our planning takes into account the unique characteristics and needs of each watershed and ensures a reliable water supply for all users. La Plata County promotes water conservation and reuse to reduce our water consumption. As a community, we planned for higher conventional energy prices by investing in new technologies. Thus, our ~~C~~ county is renowned for its energy independence and as an exporter of [conventional and](#) renewable energy. Locally we have reduced energy demand through efficiency, conservation, and design.
